

Friday

Dear Lord,

There has been such contentious questions about what environmental triggers may contribute to autism. Studies supporting each position are plentiful and yet the truth is not clear to everyone. Lord, you know the inner workings of every body you created. You know the full and complete truth in this matter. We ask, Father, that you would expose the whole truth about the causes and that they would be clear to all. We ask that you would give the medical community tremendous insight into autism and ask that you would work a miracle to bring the warring factions together for the sake of saving future children from this disease.

In Jesus' Name,  
Amen
